APPENDIX M **BY-LAWS**

IDENTIFICATION OF ALL MODEL AIRCRAFT

Passed 12/03/97, amended 30/11/02 and 19/2/19

All models with a weight of >1 Kg ready to fly should have the members registration letters and numbers (IRL-xxxx) in a height of at least 15 mm permanently affixed to it. They should be placed so as to be visible outside or inside the model in a manner easily visible when the model is simply dismantled (e.g. the wing or canopy removed). In addition all models should carry a Registration Tag in accordance with current IAA Regulations.

It is the responsibility of the model owner to remove any registration details and de-register from the IAA website on transfer of ownership of any model.
