1 ORGANISER AND LOCATION

The Italian Aero Club (AeCI) invites all FAI affiliated National Air Sport Control Organizations in Europe to join in the 16th FAI F3CN European Championships for model helicopters for seniors and juniors with a team in class F3C and / or with a team in class F3N for the year 2022 on the following terms:

1.1 COVID-19 Safety Information

Bulletin – 2 and all the following documentation will include all the necessary information and the protocols that the organizers and the participants will have to follow in order to participate based on the national regulations and the FAI recommendations. Always the national regulations prevail at all times over FAI recommendations. From time to time please visit the [FAI web site COVID19 section](#) for any updates. Our web site will also be updated for this matter when so needed.

1.2 COVID-19 Deadline

As it happened last year with all World or Continental Championships, as organizers we will be in direct contact with CIAM Bureau in order to evaluate together the situation and decide accordingly. As always public health is and will be our top priority. If it will be required to cancel or postpone the event this will be announced to you not later than (60 days before the beginning day or a specific date).

The deadline to decide whether or not to continue the championships is the 30th of April 2022.

1.3 Classes

F3C – Aerobatic Model Helicopter – Senior and Junior

F3N – Freestyle Model Helicopters – Senior and Junior

1.4 Participation

Every FAI affiliated National Aero Club (National Airsport Control Organization) in Europe may enter a F3C-Team consisting of one Team Manager, a maximum of five competitors provided that at least one is a junior (age limit 18 years in the year 2022) and at least one is a woman and official helpers and/or a F3N-Team also consisting of one Team Manager, a maximum of five competitors provided that at least one is a junior (age limit 18 years in the year 2022) and at least one is a woman and official

helpers, in agreement with 2022 CIAM General Rules C.5.3. The 2016 F3C European Champion and the 2016 F3N European Champion are also invited to attend. Supporters from each participating country are welcome to the event.

The reigning F3C European Champion, Ennio Graber (SUI), and the reigning F3N European Champion, Eric Weber (GER), have the right (subject to the approval of his NAC) to participate in the championships in their class regardless of whether or not they qualifies for the national teams. If they are not a member of the national team, their scores or places will not be considered in the team results. Every competitor can be a member of the F3C-Team and the F3N-Team and participate in both classes. In a case of doubt the jury decides about the starting time of this competitor in each round F3C and F3N.

1.5 F3C/F3N junior and women European Championships

The F3C/F3N European Championships will also have a junior and a women classification, based on the FAI Sporting Code regulations, Section 4 – Aeromodelling – CIAM General Rules 2022 edition – Effective 1st January 2022. This means that every NAC may enter a junior and a female competitor by either adding them to the senior team or as their only representative. The title of European Champion in the junior category will only be awarded if at least competitors from 4 different nations compete. The title of Woman European Champion will only be awarded if at least 4 female competitors compete. Regardless of the minimum number of competitors, the organizer guarantee that the achievement of junior and female competitors will be honoured at the official award ceremony and with the FAI medals.

1.6 Local rule for participation of non-european competitors

Non-european participants are allowed to participate at the 2022 FAI F3CN European Championships with reference to 4.1.3.1 'CONTINENTAL CHAMPIONSHIP' of the FAI General Section. The additional participants compete as outside contestants which mean that the scores of these pilots will not influence the results of the european competitors. Neither in the individual ranking nor in the team ranking.

If a non-european pilot reaches the semifinals or the finals, the number of semifinal or final participants is increased by the number of additionally qualified pilots.

Example: One non-european competitor reaches the semifinal but not the final. Instead of 28 pilots 29 pilots will fly the semifinals. The top 14 will go to the finals.

All non-european participants have to register during the preliminary entry. After the

deadline of the preliminary entry the organizer decide if a participation of non-european pilots is possible or not. A participation is only possible if there are vacancies. In case of vacancies the free starting places will be allocated in the order of registration.

1.7 VISA for Italy

For citizens of the European Union and of the European Economic Area (EEA), there is no need to **apply for a tourist visa for Italy**. These enter Italy based on their identification documents or passports which do not require any stamp or sticker representing a visa. Italy is also a member of the Schengen area which means that all citizens coming from other member states also have the right to free travel to Italy.

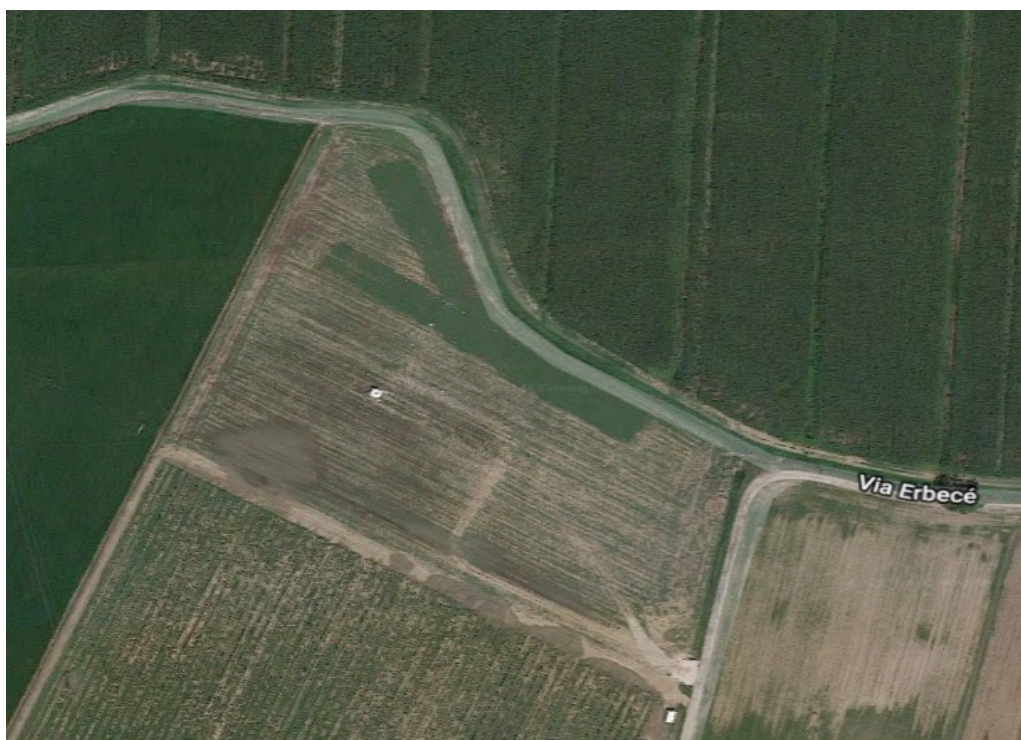

For all other people please refer to <https://vistoperitalia.esteri.it/home/en> for any information.

1.8 Site location

Fied in Monselice (PD) Italy Coord. (45.195869, 11.764632) Via Erbecè

One Flight Line for F3C and F3N will be utilized for the European Championships.

Europ Car and other

By Train: Monselice Station 8 km

2 ADDITIONAL LOCATION INFORMATION

Climate

Average weather conditions in Monselice during August are as follows:

Average min. daily temperature: 24° C

Average max daily temperature: 32° C

Average number of Rain 3

Time = GMT + 2 hours

International Dialling Codes

To Italy: 0039 + area code (without "0") + number

Emergency Numbers

Fire: 115

Ambulance: 118

Police: 113

Currency

The unit of currency is the EURO which is divided into 100 cents. There is no limit on the amount of money that may be taken into Italy. If you are carrying cash or equivalent means of payment in the amount of EUR 10,000 or more, these must be declared to customs. Most hotels, restaurants and businesses accept credit cards (American Express, Visa, Eurocard/MasterCard and Diners Club). All common currencies can be exchanged at banks, post offices, at airports, in bigger hotels, tourist offices and other currency exchange locales. A network of ATM machines, most of which allow cash advances on credit cards, can be found across the entire country. Currency exchange machines are available in some cities. There is no restriction on cash amounts being imported to or exported from Italy.

Electricity

Italy uses 220 Volts, AC at 50 cycles/seconds. The plugs in use are three-pin round. Some appliances will not function well, even if equipped with an adapter.

3 RULES

3.1 Competition Rules

The championships will be run according to:

- FAI Sporting Code Section 4 Aeromodelling CIAM General Rules 2022 Edition.
<https://www.fai.org/page/ciam-code>

16 TOURIST INFORMATION

MONTEGROTTO and ABANO TERME is a city with an ancient thermal tradition, as the structures belonging to the roman age and the archeological area prove, along with the nearby Abano Terme, constitutes the Euganean thermal zone.

<http://www.abano.it/en/Montegrotto-Terme/default.aspx>

VENICE is world-famous for its canals it is built on an archipelago of 118 islands formed by about 150 canals in a shallow lagoon. The islands on which the city is built are connected by about 400 bridges. In the old centre, the canals serve the function of roads, and every form of transport is on water or on foot. Venice is universally considered to be the most beautiful city in the world because of this unusual urban design and its inestimable artistic heritage; it is included in the heritage of humanity projects protected by UNESCO and has the highest number of visitors of any Italian city, many of whom are foreign tourists.
