**ENR 5.5 AERIAL SPORTING AND RECREATIONAL ACTIVITIES****1. FLIGHT OF MANNED FREE BALLOONS IN SHANNON FIR**

Navigation of manned free balloons in the Shannon FIR shall be subject to the following conditions:

- 1.1 Flights in controlled airspace require a specific written permission from the Authority and the balloon must be transponder equipped.  
Flights in uncontrolled airspace only require a flight plan to be filed and no transponder is required.
- 1.2 Flights shall be made only in accordance with the Visual Flight Rules and by day.
- 1.3 Flights shall not be made if the operating characteristics of the balloon and the actual and forecast wind indicate that there is any risk of entry into controlled airspace.
- 1.4 Flights shall be made only in accordance with the permission and any conditions attached thereto.
- 1.4.1 Permission should be sought, in writing from:
- Post: Flight Operations Department,  
The Irish Aviation Authority,  
The Times Building,  
11-12 D'Olier Street  
Dublin 2  
Ireland
- 1.4.2 For flights within the State, application for permission shall be made at least seven days before the intended flight.
- 1.4.3 For flights entering or leaving the State, application for permission shall be made at least fourteen days before the intended flight and shall be accompanied by a copy of a letter of authorization from the State of departure of the State of intended landing, as appropriate.
- 1.4.4 Applications for permission shall include the following information:
- Type of flight e.g. VFR (local or international)
  - Identification of balloon (registration mark)
  - Place of ascent (co-ordinates)
  - Date and intended time (UTC) of ascent
  - Type, diameter, shape and colour of balloon
  - Estimated elapsed time of flight
  - Altitude (maximum en route)
  - Rate of ascent (normal and maximum)
  - Estimated track (magnetic)
  - Place of intended landing
  - Type, make, effective range and available frequencies of radio air/ground communication equipment
  - Details of radio and other navigation equipment
  - Endurance (Hours)
  - Emergency and survival equipment
  - Name of pilot in command
  - Number of persons on board
  - Name, address and telephone number operator.
- 1.4.5 For flights leaving the State an ATC Flight Plan, repeating the information detailed in [ENR 1.4.4](#) shall be filed with the appropriate ATC unit at least 24HR before the estimated time of departure.
- 1.4.6 Permission for a series of flights may be given subject to arrangements acceptable to the Authority.

- 1.5 Notification to ATC
- 1.5.1 Intention to operate a flight, or a series of flights in the State within a single day, shall be notified by telephone to the appropriate ATC unit at least one hour before the intended time of departure.
- 1.5.2 In the case of flights leaving the State, the time of departure shall be notified to the appropriate ATC unit as soon as possible after take-off.
- 1.5.3 Completion of the flight or series of flights within a single day shall be notified to the appropriate ATC unit.

## 2. OPERATION OF TETHERED BALLOONS WITHIN THE SHANNON FIR

- 2.1 This section is applicable to any balloon that is tethered to the surface of the earth or an object thereon and that exceeds 6 feet in any linear dimension or a gas capacity of more than 115 cubic feet.
- 2.2 All applications to operate such balloons must be made to the Flight Operations Department of the Irish Aviation Authority on the appropriate application form. Forms can be obtained from

Post: The Irish Aviation Authority,  
The Times Building,  
11-12 D'Olier Street  
Dublin 2  
Ireland

Phone: +353 1 603 1540

Fax: +353 1 677 4460

- 2.3 All completed application forms must be forwarded to the IAA not less than 14 days prior to the proposed operation.

## 3. FLIGHT OF UNMANNED FREE BALLOONS WITHIN THE SHANNON FIR

Flight of unmanned free balloons in the Shannon FIR shall be subject to the following conditions:

- 3.1 Unmanned free balloons exceeding two metres in any linear dimension at any stage of their flight shall not be flown within the Shannon FIR except with the prior permission of the appropriate authority.
- 3.2 Permission should be sought from the Flight Operations Department,

Post: The Irish Aviation Authority,  
The Times Building,  
11-12 D'Olier Street  
Dublin 2  
Ireland

- 3.3 The foregoing conditions do not apply to unmanned balloons used by Meteorological Services for the purposes of upper air observations.

## 4. MODEL AIRCRAFT FLYING

- 4.1 Small aircraft which weigh more than 1.5kg, without fuel, shall not be flown within 5km of an aerodrome boundary, unless reasonable precautions have been taken to ensure the flight can be made safely.

- 4.2 Small aircraft which weigh more than 7.0kg, without fuel, shall not be flown:-

- a. Within an aerodrome traffic zone;  
or
- b. Within 5km from an aerodrome boundary;  
or
- c. Within 2km of an aircraft in flight;

Also such aircraft, except with the permission of the IAA and in accordance with any conditions subject to which the permission may be granted, shall not be flown:-

- a. Within controlled airspace;  
or
  - b. At a height of more than 400ft (120M) above the surface of the earth;  
or
  - c. For aerial work purposes;
- 4.3 Small aircraft which weigh more than 20kg, without fuel, shall not be flown except with the permission of the IAA and in accordance with any conditions specified in relation to such permission.
- 4.4 Nothing shall be dropped from a small aircraft, whether or not attached to a parachute, so as to endanger persons or property.
- 4.5 Permission referred to above should be sought from:-

Post: Flight Operations Department,  
The Irish Aviation Authority,  
The Times Building,  
11-12 D'Olier Street  
Dublin 2  
Ireland

## **5. KITE FLYING WITHIN THE SHANNON FLIGHT INFORMATION REGION**

- 5.1 Except with the permission of the appropriate, authority, and in accordance with any conditions subject to which that permission may be granted, a kite shall not be flown within the Shannon Flight Information Region:
- 1. within 5km of an aerodrome,  
Or
  - 2. Elsewhere within that Region at a height of more than 200ft above ground level.

5.2 Permission should be sought from:

Post: Flight Operations Department,  
The Irish Aviation Authority,  
The Times Building,  
11-12 D'Olier Street  
Dublin 2  
Ireland

## **6. ROUTINE LIGHT AVIATION SPORTING ACTIVITIES**

### **6.1 Introduction**

The purpose of this section is to bring to the attention of those airspace users, operating in uncontrolled airspace, information on light aviation sporting activities which take place on a routine basis within the Shannon FIR. Routine activities which have been notified to the Irish Aviation Authority will not be brought to the attention of airspace users by way of the flight information service (FIS) provided by ATS units, as details of any such activities are published in AIP Ireland. However, non-routine activities which are notified to ATS will be brought to the attention of those airspace users, who might be affected, by means of the FIS of the appropriate ATS unit. It should be borne in mind that various light aviation activities take place in the FIR which are not notified to ATS and in these cases, obviously, the FIS unit concerned will be unable to provide details of the activity.

### **6.2 Details of Routine Activity**

The following light aviation sporting activities take place on a regular basis within the Shannon FIR at the indicated locations:

**Ballooning**

Ballooning takes place in uncontrolled airspace at the following locations:

| Designation and Lateral Limits        | Vertical Limits              | Operator User No. | Remarks  |
|---------------------------------------|------------------------------|-------------------|--|
| 1                                     | 2                            | 3                 | 4  |
